It is helpful to have colors, and inspirational designs to send me as we

discuss your Beauty & Brine tail. I make a private Pinterest page where we can share ideas and images is also helpful to get to know you a bit better and understand your unique mermaid personality!

If I am unable to take new orders at the time of your request you can watch my Facebook page for new openings.

Beauty & Brine is a small bespoke company, and creating the tail of your imagination and dreams takes time, production time can be up to 3-6 months once I start your tail, and longer for custom sculpted designs. I like to work closely with my clients and as such I am only able to take a limited number of orders at a time. This ensures I can devote my time and energy to each person. I send progress photos and updates to all of my clients throughout the creation process.

I hope we can work together in the future to create a Beauty & Brine tail for you!
